INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

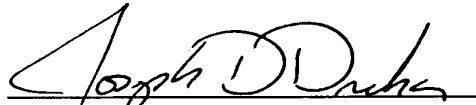

Responsive to the Interview Summary mailed March 14, 2005 in connection with the above-referenced U.S. patent application, the applicants state that a telephone interview was conducted on March 8, 2005 with respect to the present application. The present claimed invention, the cited art (U.S. Patent No. 5,923,712 to Leyendecker et al.), and the distinctions therebetween were discussed. Possible amendments to the claims were discussed, although it is not recalled by the applicant as to whether or which specific claims were discussed. The Examiner's Summary of the Interview is presently believed to be fairly accurate. The Examiner indicated that claims (e.g., 6, 14 and 26) were previously indicated to be allowable; however, no agreement was reached on other claims. The applicants have since filed a Request for Continued Examination (RCE).

Early favorable action on the RCE application is hereby respectfully requested.

Authorization is hereby provided to charge any additional fees which may be required, or credit any overpayment to Deposit Account No. 06-0308.

Respectfully submitted,
